A bullet-proof vest/jacket (also known as body armor) is a protective torso covering that absorbs the impact from gun-fired projectiles and explosive fragments. Soft vests made from layers of tightly-woven fibers protect wearers from projectiles fired from handguns, shotguns and shrapnel from explosives such as hand grenades.

Seoul International's Bullet Proof Vests, Jackets and Body Armors are Ideal for Special Operations, SWAT, for Tactical and Anti-Riot Personnel; these are currently in use in the Korean Military, Police, as well as armies of several other countries worldwide. We use specific material combined with the latest technology; our jackets, concealable vests and other body armors are tough as steel but are lightweight in quality, providing the maximum comfort, mobility and protection, extra consideration has been given while designing these models, enabling you to adjust according to your specific body types and sizes.

Ballistic Vests Levels NIJ0101.04 Level IIIA, 44 Magnum Lead SWC, 9mm FMJ. (a) Aromatic Polyamide (Kevlar 840D 200g/m² 30ply) (b) Kevlar 840D 14ply+golgfex 10ply+Kevlar noven 5ply out shell 100% nylon filament yarn woven fabric (1000D Cardura, f/r, w/r, w/p, and p.u. coated, black color.
